

Key features:

- ✓ Bacteria-killing UVC lamp
- ✓ LDS 4.0 laser navigation
- ✓ High suction power - 4.000 Pa
- ✓ Long-term battery - capacity: 5200 mAh
- ✓ 3in1: vacuum cleaning, mopping and sweeping
 - ✓ Two side brushes
- ✓ Large dust container - capacity: 600 ml
- ✓ Large water tank - capacity: 370 ml
 - ✓ Electronic water metering
 - ✓ 9.8 cm high
- ✓ Convenient remote controller and WeBack mobile application

LDS 4.0 laser navigation

LDS 4.0 laser navigation system precisely schedules robot operation and smartly detects obstacles. The room scanning frequency is as much as $312 \times 360^\circ / \text{min}$, which makes the robot work faster and more efficiently. The quad-core R16 + DDR A7 CPU combined with the SLAM algorithm powered by the LDS 4.0 laser navigation is the best guarantee of effective environment scanning and planning the optimum robot operation.

Bacteria-killing UVC lamp

Thinking of a clean and safe home? The UVC lamp effectively and safely kills all microorganisms residing the floors. UV light of a wave length up to $280 \mu\text{m}$ quickly and efficiently eliminates viruses, bacteria and fungi. Lead-free, RoHS compliant product. Health and safety are the top priorities!

Battery charging and dirt self-emptying station

This modern solution is particularly recommended to large house owners, allergy sufferers and owners of dogs and cats. The Mamibot ExVac 890 is equipped with an additional dust and dirt container - the robot upon completed cleaning, returns to the service station, where all collected dirt is automatically removed to a big, 2.5-liter bag arranged inside the station. This feature is also appreciated by those, who suffer allergy to dust and dirt: as the bag is changed about once a month, their contact with the allergens is very limited. Forget bending over every day to empty the dust container!

Huge suction power and long-term battery!

Four power levels and four volume levels:

- Silent Mode: 1,000 Pa / 55 dB
- Standard Mode: 1,800 Pa / 62 dB
- Turbo Mode: 2,800 Pa / 73 dB
- Maxi mode: 4,000 Pa / 80 dB

All these features are possible thanks to a very reliable built-in Japanese NIDEC motor of a speed 20,000 rpm. The Mamibot ExVac 890 is equipped with a very durable battery of a 5,200 mAh capacity, therefore this model is particularly suitable to clean large floor areas.

Use remote controller or WeBack mobile application to operate your cleaning robot

Not very happy with using the app on your mobile? Fine, just use the convenient remote controller and enjoy all functionalities of your cleaning robot. For users who appreciate enhanced capabilities of the application, the vast array of functions such as cleaning zone management, virtual barrier and forbidden zone setting, electronic water metering, cleaning scheduling, selection of suction power level and many others is available.

Two side brushes and powerful main brush

Two rotary side brushes with a 7 cm long bristle easily remove all dirt and bring it to the centrally arranged suction port, from where it is sucked to the dust container. Main brush, thanks to V-shaped bristle system and silicone scrapers to collect dirt, is suitable to clean both, hard floors and carpets.

Five functions to make cleaning efficient

Automatic cleaning

Closed virtual zone

Hybrid mode: combined mopping and sweeping

Selective cleaning

Scheduling

Only 9.8cm high, easily passes thresholds up to 2cm high

One of the lowest cleaning robots on the market. Easily fits space under a sofa, wardrobe or bed. The Mamibot ExVac 890 easily passes obstacles such as 1.5 - 2 cm high thresholds or skirting boards.

3in1: vacuum cleaning, mopping and sweeping

Do you have a dog or a cat? Kids came back home straight from the playground? Remember - your home is for resting, not for cleaning! The Mamibot ExVac 890 is equipped with a dust container of 600 ml capacity, which makes it one of the largest options available on the market and a self-emptying station with a 2.5-liter bag.

Cleaning completed but floor is still not shiny? No problem! Thanks to wet wiping combined with additional sweeping and removal of fine dirt particles this issue will not bother you anymore. A large 370 ml water tank is sufficient to clean a very large floor area, and electronic water metering feature enables proper cloth soaking to clean parquet, terracotta or floor panels.

Triple-stage dust and dirt filtration

Dust and dirt re-emission is a very important issue, especially for those, who suffer allergy. To prevent this, the Mamibot ExVac 890 robot is equipped with three air outlet filters: a washable pre-filter that retains the largest dirt particles, a sponge filter and a HEPA filter. Take good care of the quality of breathing air!

Amazon Alexa/Google Home compatible

Control by voice? Why not?!

Remote controller or mobile app is a convenient tool but it requires using hands. But, you can control the robot even easier and faster! The Mamibot ExVac 890 supports Google Home and Amazon Alexa functions, so you can give commands by voice and the robot will follow them.

MAMIBOT EXVAC 890 CLEANING ROBOT WITH A SELF-DRAINING BASE AND A UVC LAMP

The accessories are sufficient for a long period of use:

- ✓ (2) microfibre cloth
- ✓ (2) sets of side brushes
- ✓ Spare sponge and HEPA filter
- ✓ Remote controller (batteries not included)
- ✓ 600ml dust container
- ✓ 370 ml water tank "2in1"
- ✓ Dirt self-emptying and battery charging station
- ✓ Brush with a cutter for cleaning the main brush
- ✓ (6) 2.5l dust bags
- ✓ Operating manual in Polish

TECHNICAL PARAMETERS

Battery capacity	5,200mAh
Suction power	1,000 (4,000Pa)
Operating time (with fully charged battery)	60-215 min
Battery voltage	14.8V
Rotation speed (maximum)	30,000RPM
Water tank	370ml
Dust container + bag capacity	600ml + 2,500ml
Noise level	55-80 dB

INFORMATION ABOUT SHIPMENT

Number of robots in a master packaging	4
Number of robots on a pallet	32
Number of dirt self-emptying and battery charging stations in a master packaging	1
Number of dirt self-emptying and battery charging stations on a pallet	18
EAN - robot	6970626160591
EAN - dirt self-emptying and battery charging station	6970626160607
Gross weight	6,200 g
Net weight	3,100 g
Overall packaging dimensions	558 x 400 x 165 mm
Available colours	Black

MAMIBOT EXVAC 890 CLEANING ROBOT WITH A SELF-DRAINING BASE AND A UVC LAMP

Warranty: for equipment - 24 months; for battery - 12 months

Service: ACTION SA

Zamienie, ul. Dawidowska 10, 05-500 Piaseczno, Poland.
